BACKGROUND: The Advisory Committee was established by Pub. L. 111-347 (The James Zadroga 9/11 Health and Compensation Act of 2010, Title XXXIII of the Public Health Service Act), enacted on

January 2, 2011 and codified at 42 U.S.C. section 300mm-300mm-61.

PURPOSE: The purpose of the Advisory Committee is to review scientific and medical evidence and to make recommendations to the Administrator of the World Trade Center (WTC) Health Program regarding additional WTC Health Program eligibility criteria and potential additions to the list of covered WTC-related health conditions, as well as providing consultation on research to the Administrator of the World Trade Center Health Program. Title XXXVIII of the Public Health Service Act established within the Department of Health and Human Services (HHS), the World Trade Center (WTC) Health Program, to be administered by the Administrator of the World Trade Center Health Program. The WTC Health Program provides: (1) medical monitoring and treatment benefits to eligible emergency responders and recovery and cleanup workers (including those who are Federal employees) who responded to the September 11, 2001, terrorist attacks, and (2) initial health evaluation, monitoring, and treatment benefits to residents and other building occupants and area workers in New York City, who were directly impacted and adversely affected by such attacks ("survivors"). Certain specific activities of the Administrator of the World Trade Center Health Program are reserved to the Secretary, HHS, to delegate at her discretion;

other duties of the Administrator of the World Trade Center Health Program not explicitly reserved to the Secretary, HHS, are assigned to the Director, NIOSH. The administration of the Advisory Committee established under section 300mm-1(a) is delegated to the Director of NIOSH in his role as Administrator of the World Trade Center Health Program. CDC and NIOSH provide funding, staffing, and administrative support services for the Advisory Committee. The charter was reissued on May 12, 2013, and will expire on May 12, 2015. The charter renewal is currently in process.

MATTERS FOR DISCUSSION: The agenda for the Advisory Committee meeting includes a review of the World Trade Center Health Program's (WTCHP) structure and function, activities, member services, and communications. An overview of the WTC health research, the WTC Registry, and lessons learned in addressing WTC-related mental health issues will also be presented. The Advisory Committee will deliberate on specific questions related to: (1) addressing the need for research on developmental or health effects in children; (2) developing robust and appropriate comparison groups to improve the validity and interpretability of WTC research; (3) improving benefits counseling and psychosocial support for members serviced by the

National Provider Network; and (4) reviewing the WTCHP's "Research-to-Care" model.

The agenda is subject to change as priorities dictate.
